

Development and delivery of quality care and support for people with dementia.

Our services provide support across a broad spectrum of needs, from pre diagnosis right up to end of life. With a team of specialist workers providing services across the west midlands we are able to meet people's needs at any point in their journey.

To achieve this we have invested significantly in the development of our teams with a comprehensive in-house training programme delivered by our accredited dementia trainer. Our collaborative working with a number of key organisations enables us to strengthen our local offers; our partners include Age UK Walsall, St Giles Hospice and the Alzheimer's Society. This approach enables us to increase the range of services we offer whilst optimising our reach into communities.

Accord Care and Support provides a number of services specifically aimed at supporting people with dementia, including:

- Dementia Centres of Excellence
- Residential care
- Extra Care

- Domiciliary care
  - Dementia Caf  s
  - Dementia Support Services - Hard to Reach Communities
  - Dementia Support Services - Care Improvement and End of Life
  - Dementia Support Workers - Acute hospital
  - Dementia Friendly Communities
  - Post Diagnosis support service - PAD  s
