

Together With Tenants

Together with Tenants is a sector-wide initiative focused on strengthening the relationship between residents and housing association landlords.

Together with Tenants embodies all the great work happening across the sector to create positive relationships with residents. But it also challenges the sector to go further – presenting an opportunity for housing associations to take the lead in accountability and resident oversight.

Over the last 12 months, 130 early adopter organisations - including Accord - have been working with their residents to test out the charter, adapting it to their own local contexts, and sharing what they've learnt in order to support even more housing associations to adopt it.

Download the charter [here](#). For more information, [email Peter](#).
