

Legal & General Partnership

Our partnership with Legal & General

Established in 2018, Legal & General Affordable Homes is helping to tackle the housing crisis by developing new affordable homes across England. In 2019, we became one of 14 housing associations to partner with Legal & General to manage its pipeline of 3,500 affordable homes across the country. As a Legal & General Affordable Homes tenant, your new home will be overseen by GreenSquareAccord, who will be your main point of contact for any matters relating to your home. This can include paying your rent, reporting defects or repairs, and addressing any other specific queries you may have. In July 2020, we received handover of the first eight properties - eight 2-bedroom homes in Wolverhampton.
