

The CHARM Project

An exciting new development of 12 one bedroom homes for affordable rent, between Edward Street and the railway line in Redditch, West Midlands.

The design of these aims to create plastic free homes. The building sector is responsible for more than 60% of resource use in Europe, with more than 30-50% of material use taking place in the housing construction sector. The **CHARM** project aims to reduce the amount of waste in the housing construction sector. This project is part-funded by the European Union Interreg North-West Europe programme.

Planned Completion:

Spring 2022

How to apply:

In order to be considered for one of these properties, you will need to apply via the [Redditch Borough Council website](#)
