

# Happy Healthy Holidays Summer Finale

Happy Healthy Holidays (HHH) concluded its Department of Education funded summer programme to resounding success. Working with 69 community based organisations in Birmingham, 153 Happy Healthy Holiday clubs delivered 90,270 four hour activity sessions, with meals, to 13,665 unique children and young people during July and August 2019. 5,436 of the activity days were delivered specifically for children with Special Education Needs, and 69 percent of delivery was taken up by under 10s across the city's most deprived neighbourhoods.

Our Community Impact offers insight into the value of this work and learning for future investment.
