# Matrix

## housing partnership

GreenSquareAccord will provide nearly 2,000 new affordable homes in the next five years with the newly-announced funding from the government's Affordable Homes Programme.

Homes England has confirmed grant funding of Â£212.9m to Matrix housing partnership, led by GreenSquareAccord, to provide 3,755 new affordable homes; the funding will support delivery of 1,900 new GreenSquareAccord homes. The remaining homes will be delivered by other Matrix partners: Citizen, Rooftop Housing Group, Trident Group, Black Country Housing Group, The Pioneer Group and WATMOS Community Homes.

âThis is absolutely fantastic news, and builds on the previous successful Matrix strategic partnership,â says GreenSquareAccord Chief Executive Officer Ruth Cooke. âOne of the key reasons for creating our new organisation was to deliver more new affordable homes â and this funding support from Homes England means we will be able to do just that.â

Homes England is committing almost Â£5.2bn in affordable housing grants to 31 strategic partnerships with 35 organisations. Together, they will deliver nearly 90,000 grant-funded affordable homes that are much needed across the country.
